

Mail Lite[®] Round Trip

Mail Lite[®] Round Trip is a cushioned protective mailer used for both outbound & inbound shipments, providing an efficient solution by reducing product damage, optimising cube size, increasing productivity and enhancing customer experience.

If they were returning an online order, **94%** **WOULD PREFER TO RE-USE THE ORIGINAL PACKAGING!**

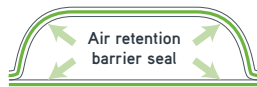

DAMAGE REDUCTION

"What I want is a way to eliminate the cost of a carton while maintaining product protection!"

Outstanding product protection

Mail Lite[®] Round Trip is lined with AirCap[®] bubble material which contains a special air retention barrier to seal every bubble against air loss for high performance cushioning.

CUBE OPTIMISATION

"I need help reducing freight costs due to these new Dimensional Weight Pricing models!"

Lightweight for postal cost savings

Mail Lite[®] Round Trip offers savings in postal costs, due to it being lightweight in comparison to traditional packaging.

Mail Lite[®] can often replace heavier, more expensive cartons, saving on distribution costs.

FULFILMENT VELOCITY

"Processing orders quickly is a must for us!"

Maximum fulfilment speed

Ideal for online and e-commerce business' for product returns, exchanges, mispicked items or refurbishment.

CUSTOMER EXPERIENCE

"Improving the sustainability of this packaging is important to me!"

Effortless return logistics

Two seals make it quick and easy for your customer to re-use - no need for a second mailer.

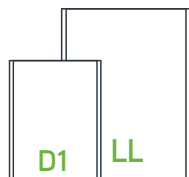

Versatile

Available in two sizes, Mail Lite[®] Round Trip, with internal barrier bubble improves protection for many applications.

Internal size (nominal)

D1: 180mm x 260mm

LL: 230mm x 330mm
